

Global Shutter Motorized Lens LPR Camera Quick Guide

Overview

GPCL1240MA4GN (Standard)

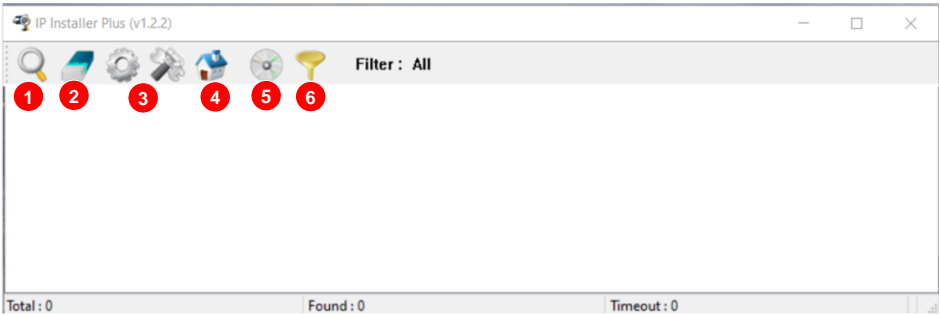

GPCL1240MA4GN (Mac Mount Bracket - Option)

IP Installer

In order to have the camera viewable on the network, IP address has to be assigned first. When a user double clicks IP Installer Plus.exe file which a software downloaded from the web page will help to search IP camera and change the IP address easily.

- 1 SEARCH : Enable to search IP cameras in the network and display the list of searched cameras.
- 2 ALL CLEAR : Displayed cameras are all cleared.
- 3 IP SETUP : After Search, select the displayed camera and click "IP SETUP" to change IP address, Gateway and Net Mask.
- 4 WEB : Go to the web viewer page for the selected camera.
- 5 UPDATE : Firmware can be updated. Before updating, please load firmware from PC.
- 6 FILTER : Search IP camera by MAC address or IP range.

Default IP Address

Factory default value of IP camera is like below.

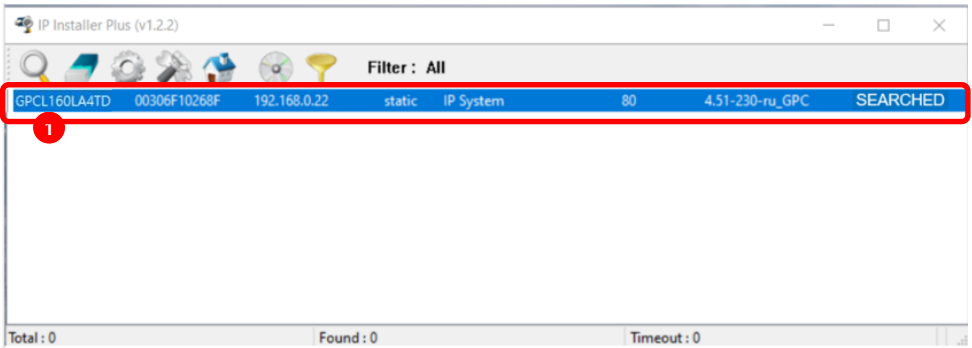

- **IP : 192.168.0.100**
- **SM : 255.255.255.0**
- **GW : 192.168.0.1**

When you connect IP camera and PC directly, please assign the IP address of PC by choosing any numbers from 2 to 254 except "100" as shown below.

- **IP : 192.168.0.150**
- **SM : 255.255.255.0**
- **GW : 192.168.0.1**

※ Available OS : XP, VISTA, WIN 7/8/10/11(32/64bit)

LIVE VIEW

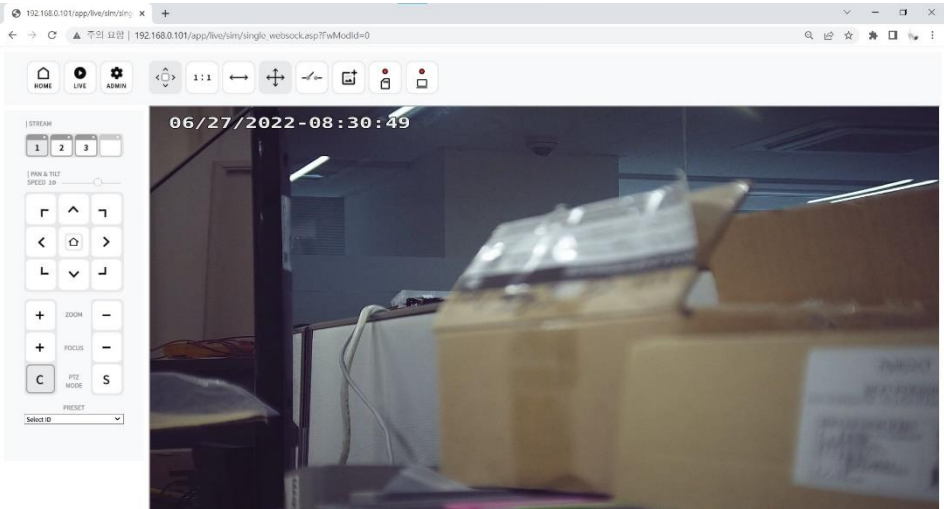

1 Double click the searched model.

2 Click 'Live View' to start monitoring the video streaming.

LIVE VIEW

- 3 Monitoring the video stream in live.

WEB SETTING

1 Click 'Admin' to get into the camera setting.
