### OVERVIEW

Lantech IPGS-0008B is a high performance all 8 10/100/1000T industrial switch with w/8 PoE 802.3af/at Injectors

#### **Dual 48V or 12V input with max PoE budget**

Equipped with DC 12~48V redundant input power, the Lantech IPGS-0008B-12V is able to boost input voltage from 12V to 48V then feed each PoE port up to 15.4Watts/30Watts with total PoE power budget 80W at 12V, 120W at 24V input or 240W at 48V input.

#### **High reliability and extended working temperature**

Lantech IPGS-0008B provides  $\pm 2000V$  EFT and  $\pm 6000V$  ESD protection, which can reduce unstable situation caused by power line and Ethernet. It has high reliability and robustness

coping with extensive EMI/RFI phenomenon, environmental vibration and shocks usually found in Automation, transportation, surveillance, Wireless backhaul, Semi-conductor factory and assembly lines.

The -E model can be used in extreme environments with an operating temperature range of  $-40^{\circ}C$  to  $75^{\circ}C$ .

It is the most suitable PoE switch for bus, carriage, other vehicles and industrial areas where the power source is limited with 12V or 24V but has demand of IP surveillance or VoIP applications.
